

NAME : _____**MARK :** _____ /50

Circle your answer :

Question 1

/2

In order to have a greater depth of field, you should prefer :

- a) A bigger aperture (e.g. f/2.8)
- b) A smaller aperture (e.g. f/22)
- c) Automatic setting
- d) Macro mode

Question 2

/2

In order to have a greater depth of field, you should prefer :

- a) A zoom
- b) A shorter focal length
- c) A longer focal length
- d) A normal focal length

Question 3

/3

Let's suppose that the setting for a perfect picture are: ISO 100, f5.6, 1/250.

In order to have a greater depth of field, what should you do?

- a) Close the aperture (e.g. to f16)
- b) Choose a higher ISO factor (e.g. ISO 400)
- c) Choose a higher shutter speed (e.g. 1/500)
- d) Choose a lower shutter speed and close aperture
- e) Choose a higher ISO factor and close aperture
- f) B and C
- g) D and E
- h) None of the above

Question 4

/2

White balance :

- a) Produces a better resolution
- b) Insure the colors are correct
- c) Has a temperature of 5 400 Kelvin
- d) All of the above
- e) None of the above

According to the above image, identify the following parts :
(Write the letter corresponding to you answer)

- | | |
|-------------------------|-------|
| 1. Shutter | _____ |
| 2. Focal adjustment | _____ |
| 3. Dioptry adjustment | _____ |
| 4. Flash release button | _____ |
| 5. Focus adjustment | _____ |

According to the above image, identify the following presets :
(Write the letter corresponding to you answer)

- | | |
|-------------------------|-------|
| 1. Macro | _____ |
| 2. Aperture first | _____ |
| 3. Automatic | _____ |
| 4. Manual | _____ |
| 5. Shutter (Time) first | _____ |
| 6. Portrait | _____ |

According to the above image, identify the following functions/settings :
(Write the letter corresponding to you answer)

- | | |
|--|-------|
| 1. Sensor (CMOS) sensitivity adjustment | _____ |
| 2. Review images stored on the memory card | _____ |
| 3. Aperture adjustment | _____ |
| 4. Shows current settings on screen | _____ |
| 5. Adjust the temperature of light | _____ |
| 6. Complete camera settings | _____ |

Question 8

/10

On this illustration of a set, position correctly (drawing the symbols) the lights in order to produce the typical 3 points lighting of a model.

Main light
1000 watts

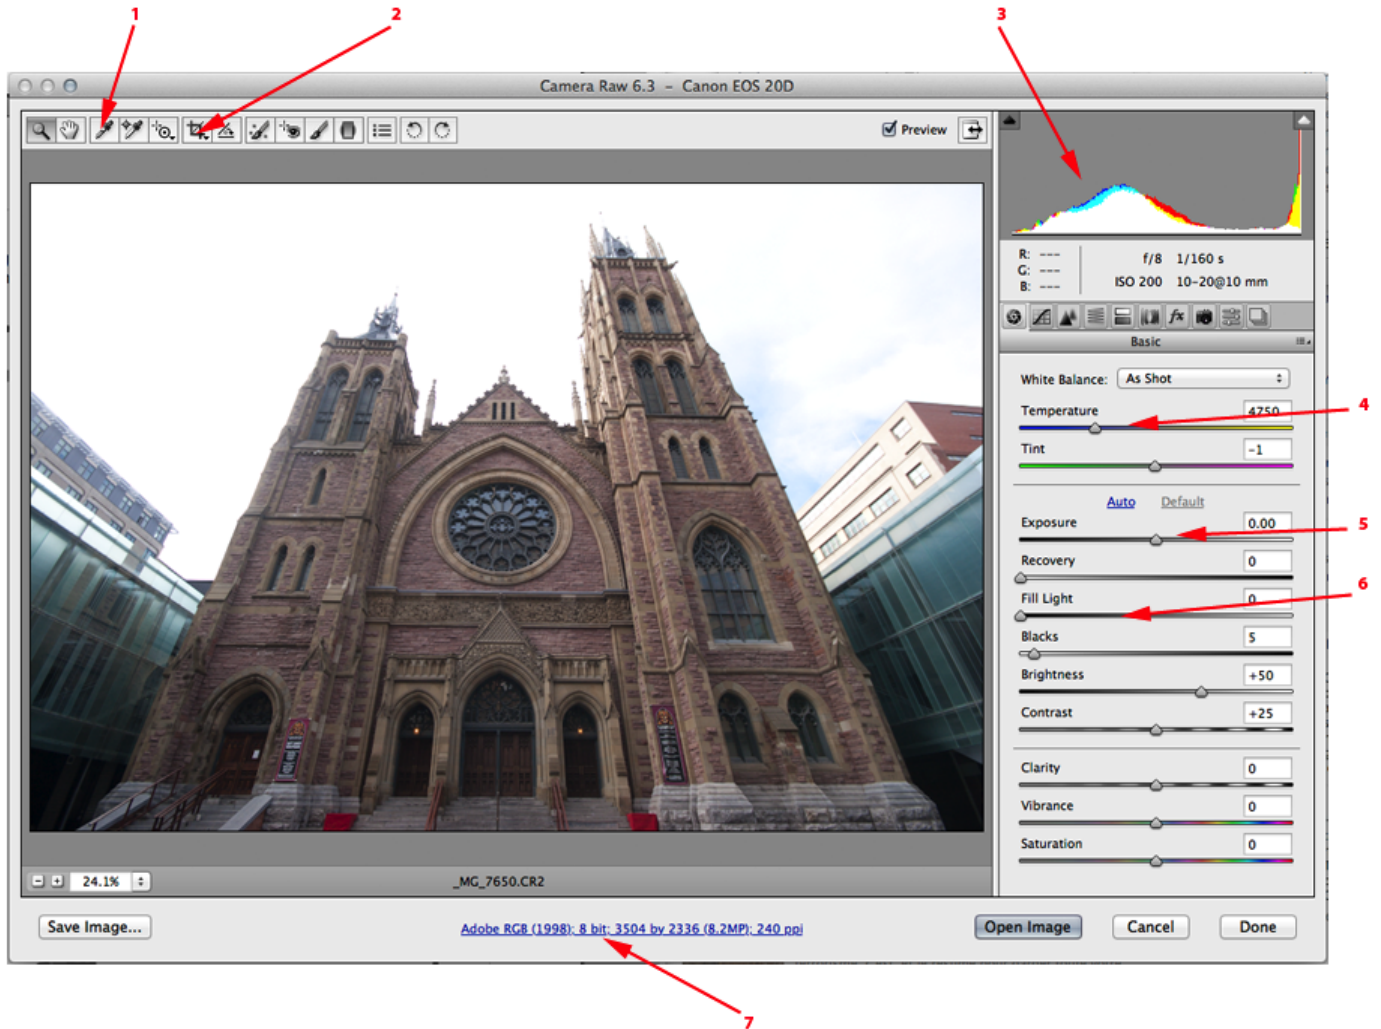

Fill light
500 watts

Back light
2000 watts

Question 10

17

Identify the following camera raw adjustments :
(Write the corresponding numbers)

Simulate fill light :

Luminosity adjustment :

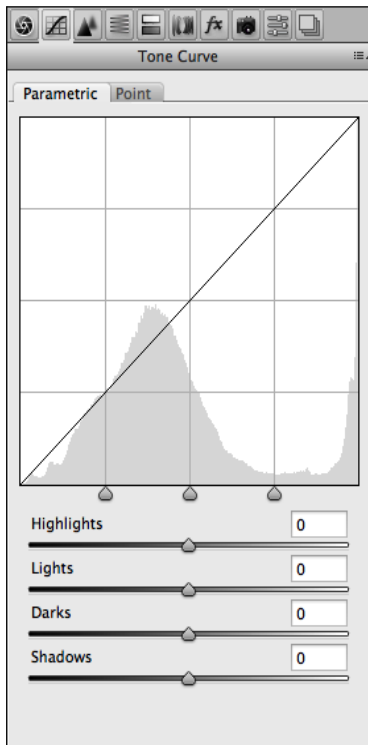

Size, color mode and resolution adjustments :

White balance adjustment :

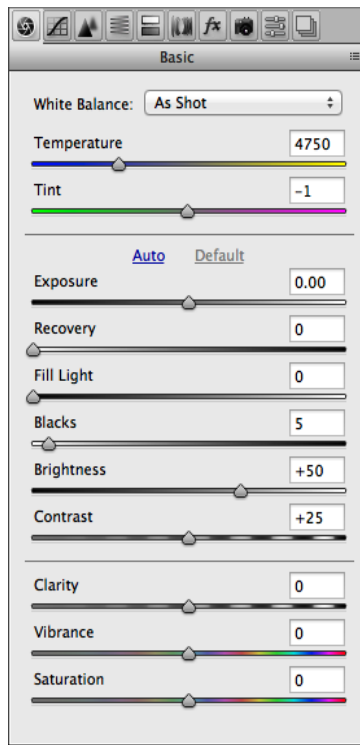

Crop tool :

Tool showing the tonal composition of the image :

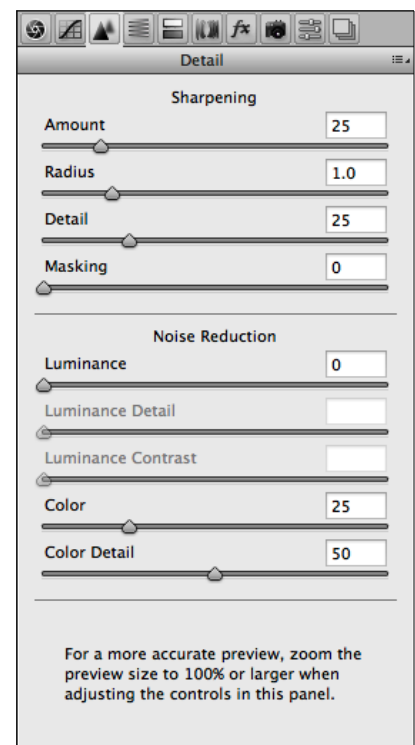

Tool used to easily adjust white balance :

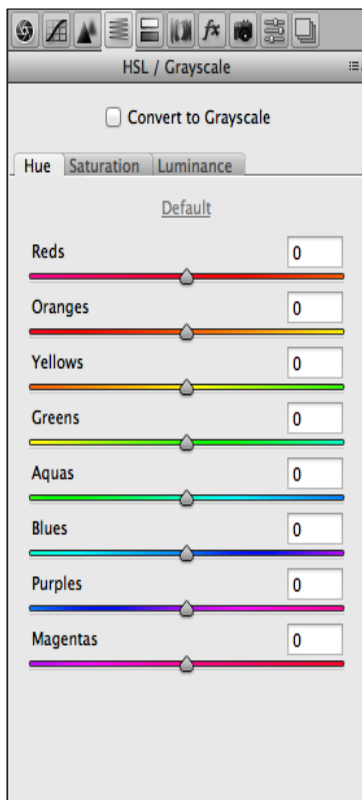

A

B

C

D

Question 11

/4

Identify the proper panels:
(Write the corresponding letter)

Panel used to correct a blurred image
and to suppress noise:

Panel used to adjust the luminosity of different
tones of an image :

Panel in which you can correct the color of the light :

Panel in which you can adjust the lightness,
the tint and the concentration of colors :

Question 12

/3

Identify the type (the genre) of photography (e.g. portrait, landscape, etc.) :
